Portfolio: exister-org.com

🎯 PROFESSIONAL PROFILE

IT professional with over 10 years of hands-on experience building and maintaining infrastructures that actually work. My approach? Combining technical expertise with pragmatism to create reliable systems that make teams' daily work easier.

What drives me: transforming fragile infrastructures into robust environments where teams can work confidently. I've led digital transformation projects (ECM, containerization), developed complete IT governance frameworks, and guided organizations in adopting new secure practices.

Core expertise: IT governance and security policies, containerization (Docker) and application modernization, virtualization (VMware, Proxmox), proactive monitoring (Zabbix, Grafana), change management, and the ability to explain complex technical concepts in plain language.

💼 PROFESSIONAL EXPERIENCE

IT Consultant & Project Advisor

Helios Cameroon — Yaoundé, Cameroon
August 2023 — Present

I support Helios Cameroon in executing strategic IT projects and resolving complex information system challenges. My role has evolved from technical implementation to project supervision, combining hands-on expertise with technical leadership.

Key achievements:

Electronic Document Management & Digitalization:

- Installed and configured the complete **Maarch Suite** (Parapheur, Courrier, and RM) for document process digitalization
- Deployed **Alfresco Community Share (ECM)** via Docker, modernizing the organization's document management
- Supported 150+ users in adopting new ECM solutions through training and dedicated assistance
- Reduced document search time by 40% through centralization and automation

Application Development:

- Developed a **custom business web application using Spring Boot and Thymeleaf** addressing specific organizational needs
- Designed backend architecture (Spring MVC, Spring Data, Spring Security) and frontend (Thymeleaf, HTML/CSS)
- Integrated the application with existing systems (Active Directory, databases)
- Ensured ongoing maintenance and continuous improvements

Technical Supervision & Leadership:

- **Currently supervise all these projects**: ECM (Maarch, Alfresco), application development, infrastructure
- Coordinate technical interventions and ensure consistency of deployed solutions
- Provide technical expertise and mentorship to teams on ongoing projects
- Lead continuous improvements and system evolution

Governance & Security:

- Designed and deployed the organization's **complete IT security policy framework** (access control, data classification, incident management, business continuity)
- Developed and documented **15+ operational procedures** standardizing IT practices
- Led **change management** for adopting new policies and tools
- Structured a cybersecurity awareness program reaching 100% of employees

Infrastructure & IS Problem Resolution:

- Orchestrated migration of 12 critical services (databases, messaging, intranet) to containerized infrastructures
- Diagnosed and resolved complex information system issues (performance, availability, security)
- Deployed monitoring stack (Zabbix + Grafana + Uptime Kuma) reducing incident detection time by 60%
- Advised on network architecture: Mikrotik routers, segmented VLANs, secure VPNs (OpenVPN) connecting 3 sites
- Optimized critical backups with Veeam and Shell scripts, ensuring 24-hour RPO
- Ensured 99.5% uptime for Windows Server and Linux systems
- Provided L2/L3 expertise for resolving 200+ monthly issues with 95% success rate

Daily tech stack: Maarch Suite (Parapheur, Courrier, RM), Spring Boot, Thymeleaf, Docker, Alfresco, VMware ESXi, Proxmox, Active Directory, Mikrotik, OpenVPN, Zabbix, Veeam, Bash scripting, Java, PostgreSQL/MySQL

Independent IT Consultant *(Side Activity)*

Freelance — Cameroon
November 2024 — Present

I help Cameroonian SMBs optimize their IT infrastructure and cybersecurity strategy. My approach: understand their business challenges before proposing technical solutions.

Notable successes:

- Advised 8 companies on their digital transformation, aligning tech with business objectives
- Implemented monitoring systems that increased network availability by 35%
- Trained 50+ users on IT best practices and Microsoft 365, making them self-sufficient
- Developed pragmatic IT roadmaps that improved operational efficiency by 25%

IT Support Technician

Helios Cameroon — Yaoundé, Cameroon
June 2021 — July 2023

Primary technical contact for 100+ users, where I learned the art of solving problems quickly while keeping a positive attitude (even facing "my computer doesn't work" at 5:55 PM!).

What I accomplished:

- Maintained office networks and secured Internet access
- Managed PostgreSQL and MongoDB databases in backend support
- Configured 30+ workstations for new hires (hardware, email, VPN, training)
- Reduced average resolution time by 40% through clear procedure documentation

---

IT Project Manager / Consultant

AGM Afrique — Cameroon
September 2019 — April 2021

Led IT projects for diverse clients, coordinating technical teams and stakeholders to deliver on time and within budget.

Notable projects:

- Directed IT infrastructure implementation for 5 clients, always meeting deadlines
- Designed and deployed secure network architectures tailored to each client's context
- Implemented monitoring systems that increased uptime by 40%
- Collaborated with management to develop security plans compliant with standards

---

Systems & Network Administrator

University of Yaoundé 1 — Yaoundé, Cameroon
February 2019 — July 2020

Within a complex university infrastructure, I maintained essential services for thousands of students and academic staff.

Key contributions:

- Diagnosed and resolved complex network incidents with a 4-hour SLA
- Installed and configured servers, routers, firewalls for campus infrastructure
- Strengthened network security and protected sensitive university data
- Troubleshot hardware and software with methodical approach and thorough documentation

---

Senior Computer Technician

COMSAS (University of Yaoundé 1) — Yaoundé, Cameroon
January 2018 — November 2021

Responsible for computer systems maintenance, I also developed a digital literacy program for students.

Achievements:

- Maintained 98% system availability rate
- Created and documented IT best practices adopted by the entire team
- Mentored students on their infrastructure final projects
- Trained 200+ middle school students in computer basics through a program I designed

---

Early Career (2010-2021)

IT Trainer *(Self-Employed, Sept. 2020 — Nov. 2021)*
Trained 15+ IT professionals, created educational modules, led project teams

IT Service Technician *(Self-Employed, Sept. 2015 — May 2017)*
Remote/onsite technical support, reduced service calls by 70%, created service desk system

IT Assistant *(Self-Employed, Aug. 2010 — Nov. 2015)*
Installed/configured 50+ equipment pieces, automated system patching, user support

---

🎓 EDUCATION

Master's Degree in Computer Science
University of Yaoundé 1, Cameroon
November 2015 — May 2018

Bachelor's Degree in Computer Science *(EQF Level 4)*
University of Yaoundé 1, Cameroon
September 2018 — June 2019

🏆 PROFESSIONAL CERTIFICATIONS

Cybersecurity — Fortinet (2024)

- FCF: Getting Started in Cybersecurity 2.0 (August 2024)
- FCF: Introduction to the Threat Landscape 2.0 (June 2024)

Systems Administration — LinkedIn Learning (2022)

- Windows Server 2019: Troubleshooting
- Windows Server 2019: Access Security Management
- Making TCP/IP Work
- Understanding Networking
- CompTIA A+ (220-1002) Cert Prep: Networking, Security, and More

Development & Management — Udemy & SimpleLearn (2022-2023)

- Spring Boot: Building RESTful APIs with Microservice Approach
- Introduction to Project Management

🛠️ TECHNICAL SKILLS

Infrastructure & Virtualization
VMware ESXi • Proxmox • VirtualBox • Docker (containerization) • Windows Server 2016/2019/2022 • Active Directory • Group Policy • Centralized access management

Networking & Security
Mikrotik (routing/firewall) • VLAN & NAT configuration • VPN (OpenVPN, site-to-site) • iptables • TCP/IP architecture • DNS, DHCP, HTTP • Cybersecurity measures implementation

Monitoring & Backup
Zabbix • Grafana • Uptime Kuma • Veeam Backup & Replication • rsync • GLPI (ticketing & incident management)

Operating Systems
Linux (advanced administration, scripting) • Windows 10/11 • Kali Linux (security testing and auditing)

Development & Automation
Bash/Shell scripting • Docker (containerized application deployment) • Git/GitHub • Spring Boot (REST APIs) • Node.js/Express.js • HTML/CSS/Java basics

Support & Communication
L1/L2/L3 technical support • IT policy writing and technical documentation • Operational procedure development • User training (groups of 5 to 50) • Change management • IT project management • Team leadership and mentoring

---

🌍 LANGUAGE SKILLS

Language	Listening	Speaking	Reading	Interaction	Writing
French	C2 (Native)	C2	C2	C2	C2

Language	Listening	Speaking	Reading	Interaction	Writing
English	B2	B2	B2	B2	B1

Reference: Common European Framework of Reference for Languages (CEFR)

💡 WHAT DEFINES ME

✅ **Pragmatic approach**: I favor solutions that actually work, not complicated architectures built to impress
✅ **Natural teacher**: I can explain technical concepts to non-technical people effectively
✅ **Proactive mindset**: I'd rather prevent incidents than fight them at 3 AM
✅ **Thorough documentation**: "It works" isn't enough if no one can maintain it later
✅ **Continuous learner**: I constantly train myself on new technologies and practices

---

🎯 WHAT I'M LOOKING FOR

An environment where IT infrastructure is seen as a strategic asset, not just a "cost center." I aspire to join a team where technical innovation serves clear business objectives, and where continuous learning is encouraged.

Availability: Immediate
Mobility: Yaoundé and Centre Region, open to national and international opportunities
